- Behavioral economics
- Decision theory
- Music discovery systems
- Fencing

EDUCATION

BINGHAMTON UNIVERSITY

BS, cum laude, 2012
Financial Economics,
Music Composition

EXPERIENCE

NYC MAYOR'S OFFICE

New York, NY

Product Management Apprentice

Mar 2018 – Sep 2018

- Led the ideation, research, and technical development of a mobile and desktop metrics dashboard, enabling the team to analyze 8000+ monthly user surveys against NYC poverty data in order to focus outreach to community-based partners.
- Led Google Analytics implementation: refined product KPIs, performed market research, served as scrum master on development sprints, built initial dashboards.
- Collaborated with department heads to refine daily scrum practice across team.

HACKTERMS.COM

New York, NY

Founder

Sep 2017 – present

- Designed, developed, and grew the desktop and mobile app for a crowdsourced dictionary of programming terms to 1200+ definitions from 800+ users. (Node/Vue.js)
- Built internal metrics dashboard to track most searched and requested terms, leading users to contribute the most in-demand content.

CODECADEMY

New York, NY

Product Operations Associate

Dec 2015 – Jul 2017

- Designed, validated, and managed the learner support and tutoring experience for the company's first monetized product (Pro) serving 5000+ international users.
- Built and scaled internal systems (content delivery, user feedback, scheduling, communications) enabling 120+ remote tutors to teach thousands of students.
- Led ideation and development of a user-facing project review feature serving 2000+ paid users: defined MVP feature set, worked with engineering and design to validate, build, and deploy the feature, leading to a 250% increase in cohort NPS.
- Defined and reported on learner support user metrics (NPS, content completion, churn, confidence) using Looker, Excel, and Intercom.
- Scaled and managed daily operations for a team of remote tutors from 35 to 120. Managed two hiring contractors.

INDIEGOGO

New York, NY

Manager of Outreach

Mar 2015 – Oct 2015

- Designed and built mass-scale marketing outreach workflow using third-party tools (Zapier, Typeform, Salesforce, AppleScripts) saving the team 5 hours/week.
- Researched, pitched, and managed individual hardware projects throughout the campaign cycle leading to multiple fundraises of \$50,000+, totaling over \$450,000.
- Implemented an email outreach strategy to engage inactive campaigns leading to a 350% increase in dormant campaign activation.

MAXIRETURN SERVICES

Brooklyn, NY

Electronic Health Records Consultant

Mar 2013 – Mar 2015

- Supported medical software integration by provided technical training to doctors during critical patient care in a zero-mistake environment.
